We monitor use on a monthly basis. If, in our reasonable opinion, you regularly exceed 40MB per day, we may tell you to reduce your future use. If you again regularly exceed 40 MB per day, we may tell you that we are going to apply network protection controls, resulting in a reduced network speed for 14 days. If you exceed 40 MB per day for a third time, we may tell you that we are going to apply further network protection controls, resulting in a permanently reduced network speed. We do not permit use of this service to provide modem access for a computer or for peer to peer file sharing, internet phone calls or instant messaging.

Voicemail charges whilst roaming

- If customers set a divert on their device to divert all calls to voicemail, or they do not switch their device on when they are roaming, they will only be charged if they retrieve the voicemail whilst roaming (see below).
- If customers set a divert on their device to divert to voicemail when: their line is busy; they do not answer the call, or the call is rejected – then the customer is charged for:
 1. Receiving a voicemail
 - The per minute incoming roaming rate for the incoming call; and, at the same time
 - The outgoing per minute roaming rate for making a call and
 2. Retrieving a voicemail
 - The per minute outgoing roaming rate for making a call.

Please note that where roaming charges are applicable for receiving voicemails, these charges may continue to apply until you are re-connected to the T-Mobile UK network. We therefore recommend that you turn on your phone as soon as permitted when you return to the UK. See 'charges whilst abroad' for details of all roaming call rates.

 - **Any text message sent to you**, which doesn't get through because you are out of credit will be lost.
 - **To make or receive a chargeable call or receive a voicemail message**, you must have sufficient credit on your account to enable you to make a call of one minute duration.  - c) you do not end the call on your device up to 30 seconds after the last third party you were connected to has ended their call.
